

LASER

Wheel Alignment

Both the STR1LCTR24 and STR1LCHC24 have the ability to measure toe and thrust angle as standard and can also be upgraded to measure camber and castor with use of a Digital Camber Castor Gauge..

Identical in operation, both models are popular with all types of customers from dealerships to race teams.

Included as standard:

- Laser Measuring Heads
- Wheel Hangers 12" to 22"
- Recharging System - Wall Mounted or Trolley
- Rear Scales Assembly
- Auto Data Chart
- Turn Plate Bases
- Dished Turn Plates
- Steering Wheel Lock
- Illuminated Display Light Box
- Instruction Book
- Two Year Warranty

Optional Extras:

- Wheel Hangers 13" to 24"
- Rim Button Extensions
- Ball Bearing Turn Plates
- Run Up Ramps
- Digital Camber Castor Gauge
- Off Road Wheel Hangers
- Low Spoiler Wheel Hangers

STR1LCHC24

Still the best selling four wheel laser aligner on the market, the STR1 LCHC24 is a wall mounted aligner, saving space by being fixed to the wall on a suspended unit. Designed and built in the UK, our laser aligners have proven to stand the test of time with units first made in 1992, still being serviced today.

Digital Wheel Alignment

STR1LCTRC24

The STR1LCTRC24 is a trolley mounted four-wheel laser aligner, providing more flexibility within the work place.

Features:

- Rechargeable, cable free heads
- Positive gravity wheel hangers - Quick and simple fixing to the wheel
- Wheel hangers & measuring heads calibrated as a unit
- Perfect wheel rim contact, causing no damage to aluminium or painted steel wheels
- Toe scales can be read from above and below the heads

Model STR1 LCTR24

STR1000

The STR1000 is a two wheel laser tracking gauge for measuring front toe only. Perfect for quick checks and small front toe adjustments, this handy tool comes with its own calibration bars.

Features:

- Allows easy access to track rod ends
- Eliminates rolling the vehicle to and from
- Can be used on 2 & 4 post lifts, pits and floors
- Wheel frames fit from Minis to 4 x4 vehicles
- Turning discs as standard for accuracy
- 'Laser' beam for easy to read measurements
- Rechargeable battery pack with charger
- Wall mounted storage provided
- Instruction sheet supplied with all kits
